GUIDE TO THE BUDGET PAPERS

STRUCTURE AND CONTENT OF THE 2014-15 BUDGET PAPERS

The 2014-15 Budget is presented in three papers and a series of agency Budget Statements.

BUDGET PAPER 1: BUDGET SPEECH

The Treasurer's speech to the Legislative Assembly highlights the Government's Budget strategies and key features of the Budget.

BUDGET PAPER 2: BUDGET IN BRIEF

A summary of the overall budgetary position together with information on the Government's expenditure priorities in key service delivery areas.

BUDGET PAPER 3: BUDGET OUTLOOK

Summarises the 2014-15 Budget and forward estimates for the general government sector, the public trading enterprise sector and the total Territory Government. Details of the projected 2014-15 Budget results are provided, as well as background information on the development of the 2014-15 Budget, including economic conditions and federal financial relations.

Also provides an overview of the Territory's infrastructure investment program and details of the 2014-15 expense, infrastructure and capital, and revenue initiatives.

Full accrual financial statements and notes are provided for all sectors.

BUDGET STATEMENTS

Information on each directorate and Territory authority and corporation is broken up into several smaller documents. This includes output classes (where relevant), descriptions of functions, roles and responsibilities, together with major strategic priorities.

ENVIRONMENT AND SUSTAINABLE DEVELOPMENT DIRECTORATE

Purpose

The Environment and Sustainable Development Directorate (the Directorate) promotes sustainable living and resource use, strengthens the Territory's response to climate change and provides an integrated planning and land use system that contributes to the sustainable development and future of the ACT.

The Directorate's aim is to lead the Territory in developing and implementing targeted policies and programs that address environment protection and sustainability, nature conservation, heritage, water and energy security, building safety, sustainable urban design, and sustainable and integrated transport and spatial planning, policy and delivery.

The policy and program functions of the Directorate are complemented by the regulatory capacity provided through the statutory functions of the *Planning and Development Act 2007*, the *Construction Occupations Licensing Act 2004*, the *Building Act 2004*, the *Utilities Act 2000*, the *Electricity Safety Act 2001*, the *Water and Sewerage Act 2000*, the *Gas Safety Act 2000*, the Conservator of Flora and Fauna, the *Environment Protection Act 1997*, the *Heritage Act 2004*, and the *Clinical Waste Act 1990*.

2014-15 Priorities

Priorities to be pursued by the Directorate in 2014-15 include:

- establishing a Catchment Management and Governance Framework for managing the ACT's waterways, including the administration of the Commonwealth's \$85 million in funding for Murray Darling Basin Priority Projects;
- assisting in the implementation of the ACT's Stimulus Package including administration of the extension of time to build and lease variation charge remissions;
- finalising and implementing the Building Act Review;
- progressing the implementation of the *ACT Planning Strategy*, including changes to planning policy that focus on urban infill development, with growth focused around commercial centres and integrated with transport initiatives. The Strategy promotes development of infrastructure that provides choices in how Canberrans live, travel and where they work;
- progressing the implementation of *Transport for Canberra*, that supports the Planning Strategy to integrate transport and land use planning to manage city growth. This transport policy outlines Government actions on public transport, parking, vehicle movement and active travel (walking and cycling);

- continuing implementation of the climate change action plan – *AP2*, which aims to transition the ACT towards the Government’s policy objective of zero net emissions by 2060, and pursuing carbon neutrality in the Government’s operations and service delivery;
- continuing implementation of the *Carbon Neutral ACT* framework which will enhance the ability of the Government to reduce greenhouse gas emissions from its operations and delivery of services to achieve the aim of zero Government emissions from 2020;
- delivering a range of strategic planning initiatives including:
 - detailed planning, variations to the Territory Plan and engineering investigations as part of the land release program, with a focus on supporting housing affordability and accessible communities;
 - working on the master plan program to identify where infill development could occur in and around town and group centres and along transport corridors and how this development and change can be facilitated;
 - participating in, and leading components of, regional planning in partnership with NSW government agencies;
 - participating in national forums on analysis and development of national transport and infrastructure strategies and policies; and
 - providing technical support to the Capital Metro Agency.
- continuing planning system and other regulatory reforms by:
 - working with industry to enhance the eDevelopment platform; and
 - implementation of the review of Part 5 of the *Utilities Act 2000* which will improve regulatory control of licensed utilities in the Territory.
- assessing development proposals, including lease variations in accordance with the Territory Plan;
- continuing an energy reform agenda at an ACT and national level and implementing the *ACT Sustainable Energy Policy*;
- assisting industry to implement the *Energy Efficiency (Cost of Living) Improvement Scheme*;
- continuing to monitor, research and implement plans and strategies to protect and conserve threatened species and ecological communities;
- finalising and implementing *Striking the Balance*, ACT’s water strategy;
- implementing the *ACT Waste Management Strategy 2011-2025*;
- celebrating, promoting, caring for and conserving the ACT’s Cultural Heritage, including local Indigenous heritage;

- supporting one stop shop reforms and offsets policy; and
- working with the ACT Natural Resource Management Council, community, governments, landholders, industry, the local Indigenous community, and scientific and research organisations to improve our natural environment including through the Commonwealth Government’s Caring for our Country program.

Strategic Objectives and Indicators

Strategic Objective 1

Leading the Community Towards Making Canberra a Zero-Net Carbon Emitter

The Government’s vision for Canberra is to set the benchmark for Australian cities in carbon neutrality and sustainability. The Directorate works across government, the business sector and the broader community to achieve greenhouse gas emission reductions.

The Directorate will raise awareness of climate change through engaging with the community, building partnerships in mitigation and adaptation and developing effective offset options.

The Directorate will:

- implement the ACT climate change strategy – AP2 as a comprehensive road map to carbon neutrality;
- ensure the monitoring and reporting of greenhouse gas emissions against legislated targets and implement a carbon neutral framework for the Government;
- promote business and community engagement on climate change through the Climate Change Council and sectoral agreements; and
- develop a sustainable transport network through strategic planning.

Strategic Indicator 1: Identify Actions to Deliver 40 per cent Greenhouse Gas Emission Reductions Compared to 1990 levels by 2020

Note:

1. Carbon offsets are measured in metric tons of carbon-dioxide-equivalent (CO₂-e).

Strategic Objective 2

Promoting Sustainable, Secure and Equitable Energy Supply

As part of the drive to carbon neutrality the Government has developed an *ACT Sustainable Energy Policy*. The primary focus of the policy is to reduce emissions associated with energy use. The policy contains specific and measurable targets to ensure the equitable provision of energy and security of supply. Implementation will continue in 2014-15 where the Directorate will:

- support the uptake of renewable energy such as GreenPower;
- support the deployment of large scale renewable energy generation; and
- support increased energy efficiency in homes and businesses through the promotion of the *Energy Efficiency (Cost of Living) Improvement Scheme*.

Strategic Indicator 2.1: Growth in Renewable Energy Generation

Strategic Indicator 2.2: Uptake of *Energy Efficiency (Cost of Living) Improvement Scheme*

Strategic Objective 3

Securing Sustainable Water Resources

The Government will continue to explore and support cost effective ways to reduce demand for drinking water, encourage sustainable water use through demand management and water sensitive urban design and ensure land and water management and construction management are undertaken in such a way as to protect receiving waters – water courses, lakes and the downstream river systems - from pollutants.

The Directorate will work across government, with ACTEW Corporation, industry, technical water experts and researchers, volunteers and the broader community to achieve these goals. The Directorate will:

- undertake extensive monitoring to identify priority catchments for improving water quality in the ACT;
- implement *Striking the Balance* strategy to specifically address long term water usage and catchment management;
- work with industry and the community to identify and implement water sensitive urban design including water savings measures, and promote water savings programs and technologies, including through rebates where appropriate;
- work with the Murray Darling Basin Authority to implement water reforms within the ACT's part of the Murray Darling Basin to achieve long term water security as the city grows, and to protect water quality in the Basin; and
- work with the Commonwealth, local and regional stakeholders to deliver the ACT Basin Priority Project.

Strategic Indicator 3.1: Work with the Community on Implementing the Murray Darling Basin Plan

Strategic Indicator 3.2: Maintaining a 25 per cent reduction in drinking water per capita from 2004 average consumption

Strategic Indicator 3.3: Deliver on the ACT Basin Priority project against timeline agreed with the Commonwealth.

Strategic Objective 4

Protecting our Environment and Promoting Contemporary, Best Practice Environmental Standards

The Directorate will continue to promote knowledge sharing and implementation of contemporary, best practice environmental standards.

In 2014-15 the Directorate will:

- continue to protect the quality of the Territory's air, land, water and environmental values under the regulatory provisions of the environment legislation;
- review and implementation of the *Environment Protection Act 1997*;
- finalise the review and amendment of the *Nature Conservation Act 1980*;
- continue to implement the *ACT Waste Management Strategy*;
- protect and manage the ACT's biodiversity;

- increase community and industry awareness and engagement in protecting our natural and built environment;
- support the COAG Standing Council on Environment to implement consistent, innovative and best practice approaches to environmental protection and management; and
- support the Ministerial Advisory Committees and Natural Resources Management Council including policies and programs that preserve our natural environment.

Strategic Indicator 4: Develop and Implement ACT Wide Sustainability Policies including Waste and Biodiversity Conservation

Strategic Objective 5

Deliver Spatial Planning, Urban Design and Building Outcomes for the Territory that contribute to a more Sustainable Canberra

This objective will be achieved through the implementation of the goals underpinning the *ACT Planning Strategy*, the *Transport for Canberra* and *AP2* policies.

In 2014-15 the Directorate will:

- implement the Planning Strategy through a range of actions including:
 - master planning for centres to provide direction for future change and growth including sustainable design outcomes;
 - begin implementation of the City Plan;
 - examining community facility planning to establish future policy positions;
 - analysing benchmarks for sustainable urban design outcomes;
 - ensuring Territory Plan land uses reflect the broad structure of the Planning Strategy including a review of the locations of medium and higher density residential zones; and
 - reviewing the Territory Plan as necessary to reflect outcomes of the Gungahlin Strategic Assessment.
- continue the review of commercial zones' development codes applying to group and local centres;
- continue land investigation, planning and design of major infrastructure supporting urban and industrial development in the Eastern broadacre planning area;
- prepare an implementation strategy for the Molonglo Stage 2 area;
- continue integrated land use and transport planning in Greenfields and Brownfields areas;

- continue to work with surrounding local and State Governments to develop regional planning for Canberra;
- plan and implement a range of transport initiatives in *Transport for Canberra* including:
 - monitoring and evaluating networks and public transport to inform new network planning;
 - developing the Light Rail Network Master Plan;
 - providing technical support to the Capital Metro Agency;
 - finalising the Strategic Cycle Network Plan for Canberra and establish areas for design and upgrade; and
 - identifying park and ride, bike and ride and approaches to support achieving a higher modal split to public transport, cycling and walking.
- continue to participate in National forums to provide analysis and input to transport and infrastructure policy nationally and in the ACT;
- support the work of the Government Architect; and
- improve the sustainability of buildings through the application of building policy and compliance activities.

Strategic Indicator 5: Amend Planning Legislation and Practices to Ensure Delivery of Land Supply, Housing Affordability and Sustainable Transport Options

Strategic Objective 6

Achieve and Maintain Effective Regulatory Systems

This objective will be achieved through continuous review and enhancement of the legislation administered by the Directorate and associated regulations, together with the Territory Plan, to deliver an effective regulatory framework.

The Directorate will:

- facilitate and manage growth and change within the City through the development assessment framework and management of the leasehold system;
- continue to implement the outcomes of the Minister's Building Quality Forum, including through the review, amendment and implementation of the *Building Act 2004*;
- complete a review of the *Environment Protection Act 1997* and implement recommendations to improve the operation and effectiveness of the legislation;
- complete and implement a review of Part 5 of the *Utilities Act 2000*;
- ensure compliance (by audit) of building certifiers with their responsibilities under the *Planning and Development Act 2007*;

- implement initiatives announced by the Government on affordable housing;
- ensure compliance with the *Heritage Act 2004* and associated regulations;
- identify opportunities for better integration of the National Capital Plan and Territory Plan.

Strategic Indicator 6: Continuous review of regulatory policies, procedures and systems and ensuring that environment protection, heritage, nature conservation and construction activities are properly co-ordinated and effective in its application

Note(s):

1. Total cost includes depreciation and amortisation of \$1.053 million in 2013-14 and \$1.087 million in 2014-15.
2. Total cost does not include transfer expense of \$3.310 million in 2014-15.

Output 1.1: Construction and Services

Provide regulatory guidance to the Building Industry through:

- audits of the work of construction occupations;
- investigation of complaints against construction occupation professionals; and
- inspection of building, electrical, plumbing, drainage and gas-fitting works.

Table 3: Output 1.1: Construction and Services¹

Note(s):

1. This output has been renamed and was previously reported as 'Planning Policy' in the 2013-14 Budget Papers.
2. Total cost includes transfer of asset expense of \$0.350 million in 2013-14 and \$34.144 million in 2014-15.

Output 1.4: Heritage

Administration of the heritage provisions of the *Heritage Act 2004* and assistance in the conservation of the ACT's heritage assets to ensure their identification, preservation, protection, maintenance and enhancement where appropriate. The area provides administrative and operational support to the ACT Heritage Council and its projects, and administers the annual funding of the ACT Heritage Grants Program. A key function is also the promotion and education of the community regarding heritage assets of the ACT.

Output 1.5: Environment

Help protect the ACT's natural environment through:

- the implementation of programs responding to natural resource management as part of the Commonwealth's *Caring for our Country* program;
- manage, review and implementation of legislation/action plans to help protect native land and species;
- sustainable use of water, including *Striking the Balance*, the ACT's water strategy;
- establish an ACT catchment management governance framework;
- administer the annual funding of the ACT Environment Grants Program; and
- promotion and education of the community regarding the ACT's natural environment.

Note(s):

1. This output has been renamed and was previously reported as 'Environment Policy' in the 2013-14 Budget Papers.
2. Total cost is supplemented by revenue received from the Commonwealth Government.
3. Total cost in 2013-14 includes an asset transfer of \$2.968 million.
4. Total cost and GPO in 2014-15 includes an additional \$2.160 million in Commonwealth Grants for *Water for the Future*.

Output 1.6: Environment Protection and Water Regulation

Policy development and administration of regulatory activities to protect and enhance the natural and built environment.

Environment Protection and Water Regulation provides advice and delivers education, compliance and enforcement services to the Government and community.

Table 8: Output 1.6: Environment Protection and Water Regulation

Total Cost	4,181	3,881
Government Payment for Outputs	3,964	3,713

Output 1.7: Sustainability and Climate Change

Develop policy, provide advice and deliver programs in relation to:

- ACT climate change strategy and action plan – AP2 including facilitating investment in renewable energy through a Feed-in-Tariff;
- energy efficiency measures, including administration of the ACTSmart and Outreach programs; and
- administration of the ACT's *Carbon Neutral ACT* and *Energy Efficiency (Cost of Living) Improvement Scheme*.

Notes to the Controlled Budget Statements

Significant variations are as follows:

Operating Statement

- government payment for outputs:
 - the increase of \$2.694 million in the 2013-14 estimated outcome from the original budget is mainly due to additional funding from the Commonwealth for *Water for the Future* (\$2.090 million) and funding for the new enterprise agreement (\$0.616 million); and
 - the increase of \$1.501 million in the 2014-15 Budget from the 2013-14 estimated outcome is mainly due to additional funding from the Commonwealth for *Water for the Future* (\$2.160 million) and new initiatives (\$0.871 million), partially offset by savings (\$1.325 million).
- other revenue: the increase of \$1.359 million in the 2013-14 estimated outcome from the original budget is due to the receipt of Commonwealth funding for the *Caring for our Country* program.
- employee expenses: the decrease of \$1.373 million in the 2014-15 Budget from the 2013-14 estimated outcome is mainly due to savings initiatives and cessation of projects.
- supplies and services:
 - the increase of \$1.402 million in the 2013-14 estimated outcome from the original budget is mainly due to the additional Commonwealth Grant for *Water for the Future* (\$2.090 million) and the rollover of funding for initiatives to 2013-14 (\$2.082 million), partially offset by the rollover of funding for initiatives from 2013-14 to 2014-15 (\$2.941 million); and
 - the increase of \$2.417 million in the 2014-15 Budget from the 2013-14 estimated outcome is mainly due to additional funding from the Commonwealth for *Water for the Future* (\$2.160 million) and new initiatives (\$0.636 million), partially offset by savings (\$0.528 million).
- grants and purchased services: the increase of \$1.327 million in the 2013-14 estimated outcome from the original budget is mainly due to the receipt of Commonwealth funding for the *Caring for our Country* program.
- other expenses:
 - the decrease of \$26.845 million in the 2013-14 estimated outcome from the original budget is mainly due to the transfer of the stormwater projects to TAMS being moved to 2014-15 (\$32.7 million), partially offset by the transfer of water entitlements (\$2.968 million) and an increase in waiver and act of grace expense (\$2.6 million); and

- the increase of \$28.287 million in the 2014-15 Budget from the 2013-14 estimated outcome is mainly due to the transfer of stormwater projects to TAMS (\$34.144 million), partially offset by the one-off expenditure of water entitlements (\$2.968 million and waivers and act of grace expense (\$2.6 million).
- transfer expenses:
 - the decrease of \$1.779 million in the 2013-14 estimated outcome from the original budget is mainly due to a decrease in extension of time to build revenue being returned to the Territory; and
 - the increase of \$3.310 million in the 2014-15 Budget from the 2013-14 estimated outcome is due to an increase in revenue being returned to the Territory.

Balance Sheet

- cash and cash equivalents: the increase of \$1.693 million in the 2014-15 Budget from the 2013-14 estimated outcome is mainly due to the cash requirement of an additional pay period in 2014-15.
- current receivables:
 - the decrease of \$2.982 million in the 2013-14 estimated outcome from the original budget is mainly due to the flow-on effects of the 2012-13 audited financial results; and
 - the increase of \$1.424 million in the 2014-15 Budget from the 2013-14 estimated outcome is mainly due to the uptake by Government agencies of the Carbon Neutral Government loan facility.
- non current receivables: the increase of \$6.611 million in the 2013-14 estimated outcome from the original budget is mainly due to the take up by Government agencies of the Carbon Neutral Government loan facility.
- property, plant and equipment: the increase of \$5.722 million in the 2013-14 estimated outcome from the original budget is mainly due to the revaluation of leasehold assets as at 30 June 2013.
- capital works in progress:
 - the increase of \$32.281 million in the 2013-14 estimated outcome from the original budget is mainly due to delays in the transfer of the stormwater projects; and
 - the decrease of \$32.894 million in the 2014-15 Budget from the 2013-14 estimated outcome is mainly due to the transfer of stormwater projects to TAMS.
